# Trade-marks Journal

## Vol. 64 No. 3290

## General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

## Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

## Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

## Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

# Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

# Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

biological and chemical preparations for use in biotechnology, namely oligonucleotides, such as DNA primers, synthetic oligonucleotides, assays and reagents for use in genetic and proteomics research; chemicals and polymers other than for medical and veterinary use for use in separation, binding and purification of biological and chemical materials; chemicals, namely solid phases other than for medical and veterinary use for use in separation, binding and purification of biological and chemical materials; reagents containing ligands, effector molecules and antibodies for scientific and medical research use; antibody-conjugated micro-beads and antibody-conjugated microspheres all for scientific and medical research use and for activation of immune system cells; chemical compositions for scientific and industrial use in the preparation of culture media; media for cell/tissue cultures, cell/tissue culture growth supplements, reagents and buffers for use in cell/tissue cultures, transfection reagents, cryopreservation reagents other than for medical and veterinary purposes; reagents containing proteins, ligands, effector molecules and antibodies for scientific and medical research use; biological and biochemical preparations for scientific and medical research use, namely, oligonucleotides, such as DNA primers, synthetic oligonucleotides, assays and reagents for use in genetic and proteomics research; kits for scientific and research use consisting of one or more of the following: proteins, nucleic acids, hormones, purification supports, resins, cells, gels, buffers, stains and associated reagents for the expression, amplification, purification and analysis of biological sample; protein and kits comprised of oligonucleotides, peptide substrates, assays and reagents for use in genetic and proteomics research, for research purposes in biochemical laboratories; cell lines for use in scientific, laboratory, diagnostic and medical research; biological and chemical preparations for use in biotechnology, namely, oligonucleotides, such as DNA primers, synthetic oligonucleotides assays and reagents for use in genetic and proteomics research; chemical and biological products for use in medical science, namely, oligonucleotides, such as DNA primers, synthetic oligonucleotides assays and reagents for use in genetic and proteomics research; microbiological and tissue culture media, animal blood and serum, and reagents and kits consisting of chemicals, biochemical, and reagents for clinical laboratory use, for medical diagnostic use, for medical research use, for scientific research use, for research in the fields of materials sciences, biology, medical devices, pharmaceutical development, vaccine development, diagnostics and biomanufacturing; chemicals used for medical research purposes, namely reagents containing proteins, ligands, effector molecules and antibodies for medical research use; insect cells, insect cell culture media and cell culture reagents all for medical laboratory use; reagents and kits consisting of chemicals, biochemicals, and reagents, all for medical diagnostic laboratory use; Chemicals and polymers for medical and veterinary use for use in separation, binding and purification of biological and chemical materials; chemicals, namely solid phases for medical and veterinary use for use in separation, binding and purification of biological and chemical materials; insect cells, insect cell culture media and cell culture reagents all for medical use; pharmaceutical preparations and substances for the diagnostic and prophylaxis and for the treatment of diseases, disorders and infections of integumentary system, muscular system, skeletal system, circulatory system, nervous system, namely central nervous system infections, brain diseases, nervous system movement disorders, ocular motility disorders, spinal cord disorders, infections, autoimmune disorders, vascular disorders and degeneration, lymphatic system, respiratory system, endocrine system, namely growth and thyroid disorders, diabetes and cancer, digestive system, urinary system, reproductive system; therapeutic pharmaceutical for the diagnostic and prophylaxis and for the treatment of diseases, disorders and infections of integumentary system, muscular system, skeletal system, circulatory system, nervous system, namely central nervous system infections, brain diseases, nervous system movement disorders, ocular motility disorders, spinal cord disorders, infections, autoimmune disorders, vascular disorders and degeneration, lymphatic system, respiratory system, endocrine system, namely growth and thyroid disorders, diabetes and cancer, digestive system, urinary system, reproductive system; pharmaceuticals for the diagnostic and for prophylaxis and the treatment of diseases, disorders and infections of integumentary system, muscular system, skeletal system, circulatory system, nervous system, namely central nervous system infections, brain diseases, nervous system movement disorders, ocular motility disorders, spinal cord disorders, infections, autoimmune disorders, vascular disorders and degeneration, lymphatic system, respiratory system, endocrine system, namely growth and thyroid disorders, diabetes and cancer, digestive system, urinary system, reproductive system; preparations and compositions for therapeutic use, namely, for activating cells of the immune systems; pharmaceutical preparations for use in the treatment of diseases, disorders and infections of integumentary system, muscular system, skeletal system, circulatory system, nervous system, namely central nervous system infections, brain diseases, nervous system movement disorders, ocular motility disorders, spinal cord disorders, infections, autoimmune disorders, vascular disorders and degeneration, lymphatic system, respiratory system, endocrine system, namely growth and thyroid disorders, diabetes and cancer, digestive system, urinary system, reproductive system; antibody-conjugated beads, antibody-conjugated micro-beads and antibody-conjugated microspheres for promoting a therapeutic effect on the body; biological and biochemical preparations for medical purposes for the diagnostic and for prophylaxis and the treatment of diseases, disorders and infections of integumentary system, muscular system, skeletal system, circulatory system, nervous system, namely central nervous system infections, brain diseases, nervous system movement disorders, ocular motility disorders, spinal cord disorders, infections, autoimmune disorders, vascular disorders and degeneration, lymphatic system, respiratory system, endocrine system, namely growth and thyroid disorders, diabetes and cancer, digestive system, urinary system, reproductive system; microbiological and tissue culture media, animal blood and serum, and reagents and kits consisting of chemicals, biochemicals, and reagents, all for medical use; chemical in the form of reagents, proteins, and cells, used for medical purposes; chemicals used for medical purposes, namely reagents containing proteins, ligands, effector molecules and antibodies for medical use.

## Colour Claim

Colour is claimed as a feature of the trademark. The applicant claims the colours black, white, light green, dark green, green, burgundy, brown, gray, tan, dark brown, light blue and blue (Pantone 638C). The mark consists of the word "SOMIADORS" in black above a depiction of a man wearing a burgundy shirt and black pants and tan skin standing halfway up a brown and dark brown ladder with an outstretched arm holding a black paintbrush painting a white crescent moon in the sky. Another man is standing below holding the ladder wearing a gray shirt and black pants with brown hair and tan skin. The sky is colored sky blue at the top and fades to blue (Pantone 638C) and then white near the bottom of the sky. The men and the ladder are in a field of light green and dark green vegetation with burgundy flowers. Behind the field are trees in dark green, hills in mottled gray and green and mountains in gray. *PANTONE is a registered trade-mark.
